Liza Twohill

Nutritional Supplements

These vary in price ranging from \$25 - \$70 per item. Most supplements will last for 4-8 weeks. At times patient will be taking 1-5 supplements during their focused treatment which is usually for 8 – 12 weeks.

Supplements are not always needed and food as medicine, lifestyle and dietary changes are always part of each treatment.

Pathology Testing

All pathology tests are paid for by the patient and 100% of the fee goes to the pathology lab. Liza does not gain any financial benefit from any testing.

All pathology testing is referral only and will occur during a consultation. Cost for test range in price, for example a faecal microbial test is around A\$380, an Organic Acids Urine Test is around A\$365, food IgG ranges from A\$181 – A\$360 depending on how many foods are tested.

Wholefood Workshops

These prices will range depending on face to face or automated. Please look at our [website workshops](#) page for pricing
